FOALS 1

Ms. Renee, Ms. Paulina, Ms. Reann, Ms. Marcella

I want to welcome all the new families to Foals 1. Our class is looking forward to the start of a new school year with new exciting challenges as the learning never ends in our classroom. We keep the learning flowing as we discover our school, classroom, and friends through play. At this age every minute is a learning experience, and in our class, we like to make sure those moments are filled with fun.

With so much movement and growing happening during this phase, we are always excited to explore the 5 senses with your baby. Listening to music with our ears, tasting our foods with our taste buds, smelling different scents in our classroom and touching different textures around the room will not only encourage us in using all of our senses to learn, but also introduce our little ones to new sensations.

As fall brings a change in the air, we enjoy colorful leaves, and joyous holiday celebrations. We will make a fall tree with our handprints using the colors yellow, red, orange, and brown. During floor time, we will take the opportunity to talk about our favorite unit, our family. We will spend a lot of time looking at pictures of

our families and talking about them. We will make a family collage.

Tummy time strengthens your baby's back and neck while lifting his/her head, legs, arms straightening, and elbows lifting briefly off the floor, preparing the muscles to carry weight in crawling. Crawling is an important motor milestone because it requires alternating movements of both sides of the body.

As we end the year with the holiday, we will be busy with art projects. We will sponge paint a Christmas tree green, finger paint a wreath, and paint Christmas ornaments. As always, our little friends are learning about themselves, their world, and their abilities. We are here to help and encourage them to reach their goals.

Communication is a vital part of any relationship, and as teachers we would like to make sure we have all forms of communication open to you pertaining to your child.

Please feel free to contact us by calling RHA via email at foals1@rockinghorseacademy.com or through the Procure app. We are so grateful to have your child and you as part of the RHA family.

FOALS 2

Ms. Sydney, Ms. Stephanie, Ms. Cassidy

A SENSE OF Fun

Farewell summer! Hello autumn and a big welcome to our new friends. We are excited to have you with us.

We are gearing up for lots of learning. At this age, every minute is a learning experience, and we want to make sure these moments are fun filled. With so much movement and growth occurring during this phase, we are always excited to explore and use the 5 senses with your baby. We introduce sensory experiences daily; this includes listening to music, tasting a variety of foods, creating our artwork, and touching different textures.

One of our favorite activities in Foals 2 that encourages the use of our senses is playing with our sensory toys. Our current wall allows your baby to feel soft, fluffy textures, rough grass-like surfaces, and smooth cool areas. Our sensory bottles can be loud noises or can be soft noises. Did you know your baby is learning Science through sensory play? Investigating how the boards feel and look is science. Learning to touch the fluffy textures because they are soft and avoid the rough textures because they're pokey is your baby's way of investigating and analyzing the world

around him/her.

To further support each baby's development, we use different words to expand his/her language when describing how things feel, taste, and smell. This activity can carry over into mealtime and art time. Crumbling crackers, tasting new foods, squishing paint between our fingers is all part of sensory development and teaches your baby cause and effect. As you can see, the learning and fun really doesn't stop in Foals 2. Not only are we having fun and learning, but we are also hitting so many milestones daily, such as crawling, pulling up, surfacing furniture, longer naps, and even new food like many different solids. I am beyond excited to be able to help teach your baby all these big milestones we will remember forever.

Communication is a vital part of any relationship, and, as teachers, we would like to make sure we have all forms of communication open to you pertaining to your child. Please feel free to contact with questions, comments, or concerns by calling RHA, via email: foals2@rockinghorseacademy.com, or through the ProCare app. We are so grateful to have your child and you as part of the RHA family. We look forward to more growing and learning with your baby in Foals 2.

COLTS

Ms. Emily, Ms. Ava, Ms. Emma, Ms. Lindsay

WORLD OF Wonder

We want to thank you for allowing us to care for your child during these changing times. We want to reassure you that we are doing everything that we can to keep our Colts and their family members safe and happy. Two things that we do daily that the children love to do: frequent handwashing and “toy cleaning”. We change, clean, and sanitize toys multiple times throughout the day (without help from the children).

We are so excited about the start of the new school year! Each month we will be exploring new themes through art work, literature, music, and dance. We will also introduce the children to fun new colors, shapes, Spanish words, and American Sign Language. Our

lesson plans are posted weekly and will help engage the children creatively, socially, and mentally. Not to mention that all of our lesson plans use STEAM, which also helps build critical thinking skills! We tend to do a lot of “Playing to Learn” at this age which includes many messy art projects and encouraging the children to play with their food! At this age, sensory play is vital, and these activities can help them to work together, be creative, and recognize colors and shapes. Throughout the rest of the year, we will have ample opportunity to celebrate a multitude of other occasions such as our Fall Fest in October, the Family Feast in November, and Holiday Traditions from Around the World in December! We hope that you and your families will help us celebrate these occasions with gusto!

Reminders!

Please make sure that you provide weather-appropriate clothing for your child. Don't forget to label all personal belongings (coat, bedding, water cup, etc.) with your child's first name and initial last name. Please remember to label all diapers with your child's initials. As always, we will continue to use a lot of repetition with our Colts. This is the best way that they learn the skills that are needed in life. Remember that we are here for your child and you. Questions, comments, and concerns will always be answered in a timely manner. You may leave us note via the ProCare App, email colts@rockinghorseacademy.com, or call us during our nap hours (12:00-2:00)

PONIES

Ms. Allison, Ms. Shalondra, Ms. Alex, Ms. Destinie

FALLing INTO Fun & Learning

Hello from Ponies! Autumn is here and the holidays are right around the corner! There is a lot to do and learn as we dive right into one of the busiest and most fun-filled seasons of the year.

Students have been enjoying games, puzzles, and sensory play that helps them expand their fine motor skills. We are working on our speech and vocabulary with seasonal songs and books. We ask you to continue to encourage your little one to verbalize as much as possible; we love to hear your Ponies chattering! All our children learn at different speeds, and the learning of speech is integrated into every aspect of our daily routine. As always, we are using our sign language whenever possible! We encourage children to communicate their feelings using words. "Soft touches" and "Use your words" are common phrases used in our classroom.

Every week we review our shapes, colors, animal sounds and focus on various letters of the alphabet. In our everyday activities, we find different opportunities to count from 1 to 10. We count our friends, fingers and even our snacks! Mom and Dad can help too, by counting to ten each time we brush our teeth or wash our hands. Coming up in the next few months, we will be talking about our homes and families. In November we will use the Thanksgiving Feast to bring together the

themes of family and friendship as our Rocking Horse community gathers to eat together. We hope you are able to attend; keep a lookout for more information coming soon.

We are looking forward to the next few months as we start getting ready for the upcoming holidays. The Ponies have some fun projects coming up including changing leaves and new plants we will work on growing together. We will get the opportunity to plan more activities outside as the weather cools down. We will be collecting leaves so we can make a sensory leaf bag. As we talk about the changing weather, we can feel and see the changes outside. October is very exciting for the Pony classroom. It is our month to decorate the lobby as a class, and we get to be creative and display our artwork for the school to see every day.

Reminders

As the weather changes, please remember to check your child's cubby and refill with cool weather clothing: pants, shirts, socks, etc. Soon, we will need a jacket or sweater for those chilly autumn mornings. As always please remember to label everything that comes into class with your child.

Thank you so much to all of the Pony parents! We are so appreciative for all of the support you give to us each and every day. We look forward to spending a wonderful holiday season with you and your child! Please let us know if you have any questions!

CHARGERS 1

Ms. Paris, Ms. Maribel, Ms. Diana

CHARGING INTO Fun & Learning

Welcome to Chargers 1. A new school year is beginning, and we can't wait to learn and grow! We will learn all about our shapes, colors, explore letters and practice counting through repetition, songs, games and circle time activities.

We will begin with getting to know about each other, our classroom, and our school. Be on the lookout for our All About Me project. This will be a fun project to do as a family! In October we are going to STOP DROP and ROLL into our fire safety theme. Where we will learn all about firefighters, fire engines, and learn to listen out for our schools fire alarm and where we go when we hear it.

We incorporate STEAM throughout the classroom everyday. With fall right around the corner we will be counting fall leaves and the seeds in an apple. We will be exploring pumpkins. We will learn the science of what is inside a pumpkin, examining the seeds with magnifying glasses, while also using our senses to smell and touch the insides. We will do a large variety of fall art activities such as making a fall leaf collage from leaves we gather. We are also going to make some sensory water bottles based on the seasons. In addition to STEAM, we will be doing activities with a focus on cultures, diversity and kindness. With the holidays approaching, we will explore diversity with our holidays around the world.

Potty Talk

Around 2 years old, your child may become interested in using the potty. This can be an extremely exciting time for both families and your child. Having your child sit on the toilet during diaper changes is a great way to begin the learning process. Toddlers love to practice their newfound independence by "doing it by myself." Dressing your child in clothing that is easy up and down and washing hands after potty is a great way to work on self-independence. If you feel your child is ready to start the potty training process, we are here every step of the way.

Reminders

Please remember to label ALL of your child's belongings: clothes, diapers, wipes, cups, lunch boxes, bedding and backpacks. This will help eliminate confusion and lost items. Also, please bring a bag or backpack to put all of your child's belongings in on Fridays. Its about to get chilly for our little twos be sure to dress accordingly (jackets, extra socks, shoes, pants, long sleeves)

CHARGERS 2

Ms. Chelsi, Ms. Marissa, Ms. Carol

BACK TO School Cool

So long, summer, we sure can hope! Chargers 2 is ready to welcome the cooler weather and fall! It's time to get back on track and start the new school year with lots of new learning activities with our new class. September will bring up our theme of Back-to-School. We will continue work on learning our letters of our names, number recognition, shapes, and colors. The children love to see the school buses while at school, which provides us with another learning activity- with shapes and colors.

We will talk with our friends as we welcome them to our class as new friends from Chargers 1. We will also explore our 5 Senses and how they work. We will do an experiment on our 5 senses and graph our results along with talking about them in small groups (further info to come soon, since this will include taste). Our calendar gets very busy during October when we work on our themes of Fire Prevention, Stranger Danger, and Fall Harvest. Yay, pumpkins and apples! A few of our planned activities include apple tasting, lemon tasting and carving our class pumpkin together. This is always so much fun and such a great learning experience, which goes in hand with our 'five senses'. The children look forward to this time of the year, especially when they can wear their Halloween costumes to school and have a parade around the building. They also love to see the older children pass by in their costumes and cheer and clap for them during our parade.

We will work on the skills for Fire Safety and Stranger Danger. We will learn to Stop Drop and Roll and make fire hats. The skills we learn will be fun but also helpful to the children.

In November we will talk about family and togetherness. We will make paper bag turkeys, sort and count acorns, talk about our families and have a wonderful feast here at school (stay tuned for details). We will be going over the weather, the leaves changing and together build a scarecrow (we would love help with donations with both to do so). Then December will be with us before we know it, and we will do many fun and exciting holiday activities including our book exchange among our friends. We will talk about traditions that our families share together and have a holiday party to celebrate this special time of year with family and friends. Lastly, towards the end of our class "year" We will review our numbers, letters and shapes and see how far we have come with recognition of what we've learned in the previous few months.

Reminder, please do not forget to have a FULL set of weather-appropriate clothes--LABELED in your child's cubby at all times. Shoes are always one that's forgotten. Please be sure your child has a backup pair of shoes as well. Please also make sure that their water bottles and belongings are labeled with their name. And only fresh water in the water bottles please, no additives. Thank you so much for a wonderful class! We couldn't do this without you awesome families.

PINTOS

Ms. Monette, Ms. Juli

BACK TO School Mode

Goodbye summer, hello fall! We are moving into the time of year that gets us back into school mode and brushing up on our language, math, and science skills. We will incorporate this through small and large group

lessons, hands-on activities and circle time. One of our themes, which is “My School”, will get us back into the groove and excited to experience new and exciting activities, such as learning how to spell and trace our names, identifying numbers 1 through 30, holding a writing utensil and scissors correctly, and learning sign language and everyday words we use in Spanish. We will also work on being kind to our friends and following simple rules, transitioning to new activities, and respecting the toys and materials in our classroom.

In the coming months, we will learn about a variety of subjects such as fire safety, stranger danger, the season fall and holiday traditions. In addition, we will go more in depth with identifying colors, shapes, numbers, and letters. Every week we will have a new theme, color, shape, and letter for us to learn and review. We will also be doing super fun science/sensory activities such as carving a pumpkin to see the insides and using a magnifying glass to look at the seeds. In the fall, we will get to know our friends and family. We will be making a self-portrait and really getting our creative side going. Students will also learn about fire safety. This topic is very important because knowing the characteristics of fire will help children identify its dangers while discouraging them from playing with fire. We will talk about what firefighters do to stop the fire as well as the components of fire alarms.

Potty Talk

Potty training is an on-going experience in the Pinto room, so it is important to keep 3 sets of clothes and even a pair of shoes in your child’s cubby. Plastic bags are our best friends, so please feel free to bring in any extra you have. Remember when dressing your Pinto to make sure he/she is wearing clothes that allow him/her to easily pull down to go potty and pull up as well.

Reminders

Please remember to label everything, including your child’s bedding and apply sunscreen in the morning. We will use the sunscreen RHA supplies in the afternoons before going outside. (No aerosol) Please send your child with a labeled water bottle each day (water only). We recommend adding ice to keep it cooler. As always, we are here for any questions or concerns you may have. You may call during nap time (12:30-2:00), leave a Procure message, or email us at Pintos@rockinghorseacademy.com

WRANGLERS

Ms. Brittany K., Ms. Aliss, Ms Brittany A.

FUN AND Learning

Wow! Summer came and went, but we are excited to start the new school year! We look forward to our year together as we prepare our Wranglers for Pre-K next summer. We have so much planned for this school year. We are teaching them to be more independent by asking them to put toys away in their correct places after they use them, encouraging them to use the potty on their own and asking for help once they are done, and giving them classroom jobs.

To kick off the start of the school year, we will focus on Back-To-School. As we welcome our new students, we will talk about ourselves: learning about school, our classroom, and our friends.

When we learn about ourselves, it is also important to incorporate how we interact with each other which will bring us to our theme on Manners. We will talk about why manners are important, but most of all be kind! Each of these units will focus on the importance of social and emotional development. Getting along with their peers and regulating moods/emotions is a great way to prepare for kindergarten.

Moving on from the classroom, we will learn about Fire Safety, Stranger Danger, and Community Helpers. Every month RHA practices a fire drill, but we will extend this unit by also learning how to dial 9-1-1 when we have an emergency and learning about stop, drop, and roll. Stranger Danger is another part of our safety unit; this gives us a chance to learn how to be safe if a stranger approaches us. We will discuss what to do, who to tell, and figure out who a "safe stranger" is versus a stranger. A stranger is someone we absolutely do not know, but a "safe

stranger" is, for example a teacher, doctor, or police officer. This brings us to learning about Community Helpers and why they are so important. When you're out and about, point out the community helpers to your child to continue the learning at home. Have them tell you their job and why it's important to our community. The purpose of these lessons is to ensure that our children are equipped with this knowledge, so that they will know what to do and be confident in their response to these types of situations if they were to ever occur.

Many holidays are coming up, and we love any reason to celebrate! We will kick fall off by hollowing out a pumpkin and turning it into a volcano. RHA will have a costume parade where your child can wear his/her costume to school for all the other classes and staff to see. As we transition into cooler weather, we will discuss seasons, and holidays traditions for Thanksgiving and Christmas. We will learn about delicious foods we eat during the holidays and share family traditions that are special to each of us. Start gathering your favorite holiday recipes and traditions for your child to share with the class! We will also look at other traditions around the world to learn about diversity. For science, we will make fake snow for our science center and melt an ice cube with salt.

Reviewing

While we have so many fun themes and holidays coming up, we will also still be learning our colors, shapes, letters, letter sounds, numbers, days of the week, and the months of the year. We will introduce scissors and slowly start doing scissor work by first just cutting up some scrap paper that we recycle to use for future crafts and work our way up to cutting exercise worksheets.

MUSTANGS

Ms. Alycia, Ms. Jessie, Ms. Daulin

FALL INTO Learning

We are excited to fall into learning and end 2024 with a Bang! The next few months are going to go by so fast and before we know it, we will be ushering in a new year! We are so excited to have Ms. Alycia and Ms. Jessie as co-leads for a fresh start to the Mustangs classroom! With that being said, let's talk about all the fun learning we will have this year!

One of our main goals in the Mustang classroom is getting your child ready for the Pre-K class! In the next few months, we encourage your child to be more independent from going potty on his/her own, practice using scissors, proper hand-washing skills, and assigning classroom jobs! We will continue to practice tracing and memorizing his/her name in hopes that he/she needs minimal help by the end of year.

Our curriculum for the rest of the year is going to be FALL-tastic, starting with our Back-To-School unit! As we start to welcome new friends, we will talk about ourselves: our school, our classroom and our friends. When we learn about our friends, we will learn how important it is that every friend reacts differently to social interactions. We will continue to discuss how using manners with friends, family and teachers can be helpful but most importantly kind! We will also learn how to express ourselves in a positive way by helping our students recognize their emotions and use their words to communicate their feelings in a respectful way. We will focus on the importance of social and emotional development by helping them regulate their emotions with their peers and prepare for kindergarten!

In the Mustangs classroom we practice teamwork between friends and teachers, just like when we learn about our community helpers! We will be discovering new facts about community helpers, like police and firefighters. We will learn how to dial 9-1-1 when we have an emergency and learn how to stop, drop and roll. We will discuss fire safety and stranger danger to make sure our students know how to stay safe, who to tell and how to respond. We will talk about how strangers are someone we don't know but also that there are "safe strangers" like teachers, doctors or police. We will ensure your child is knowledgeable and prepared for any situations if they were to occur.

If there's any reason to celebrate, it's the holidays! RHA will have their annual Halloween parade, where your child can wear his/her own Halloween costumes to show the entire school! For our Halloween STEAM group activity, we will be making "not so spooky ghosts", where we will combine a baking soda filled balloon to a water bottle filled with vinegar and watch our ghosts grow from the chemical reaction. As the weather cools down, we will learn about how the weather correlates with the seasons and discuss the holidays that follow, like Thanksgiving and Christmas. Holiday traditions are so special that they have either been passed on from generation to generation or families have made their own! Be prepared to gather your family recipes and traditions for your kiddos to share with the class. We will also discover other holidays and traditions from Around the world to learn about the importance of diversity!

These next few months will be full of excitement all while your child is still learning about their colors, shapes and numbers every week. We can't wait to continue to watch them learn and develop as we take on the rest of the year!

TROTTERS

Ms. Tina, Ms. Kaylee, Ms. Erika

PRE-K Official

Hello Trotter families! Well, we have officially started Pre-k and so far, I am loving the progress I am seeing. The class has adapted to the routines and schedules so well, and I cannot wait to see what else their little brains soak up the remainder of the year.

These upcoming months, we have fun activities we are all looking forward to. For example, in October, we will read Pumpkin Jack and place a small jack' o lantern in a glass jar. This experiment will teach the students about decomposition, rotting, and how resilient the pumpkin seeds are. It is also going to teach us the life cycle of the pumpkin. Another activity I like to do with the class is build structures with gummy pumpkins and toothpicks. This activity helps them work their fine motor skills and cognitive development as they try to figure out different ways to build.

Another subject that we will touch base on is letter sounds and letter recognition.

The class can recognize a few letters, but our goal by the time they leave Pre-K is to read all 26 letters and know all their sounds.

One of the topics we are currently tackling in our classroom is tattling. To help lesson it in our classroom, we are working with the children to learn how to work problems out together before coming to talk to the teacher. We have been talking to the class about the difference in when they can work it out alone and when a teacher needs to step in. They have been doing so well on telling friends “No, thank you, I don’t like that.”, “ Please don’t touch me.”, “I don’t like those words.”. We do talk about this in between transitions, so they do hear it a few times a day. Some ways the families can also help us out is just by talking to your child about it as well.

We are looking forward to the rest of the year with your child, and we cannot wait to see how much they progress. Before you know it, graduation will be here, and they will start the next chapter of their academic lives.

BRONCOS

Ms. Miriam, Ms. Norma, Ms. Denice

STAR Students

Summer's been a blast, but the school year is here, and I am so excited to be working with your star students. There is so much in store for our students over the next four months, and we will start incorporating our Scholastic's Big Day Curriculum. We will begin with a focus on being back-at-school and talk about our friends, manners, and our classroom. We will also spend time learning about community helpers, fire safety, holiday traditions, working in our journals and folders to prepare your child for kindergarten. Journal writing teaches spelling, writing, counting, cutting, and many other learning skills.

Over the next few months, we will incorporate STEAM concepts throughout our curriculum themes and through other classroom activities. As we explore our curriculum theme of family, we will make a class family tree during circle time. Each student will get to add members of his/her family to the chart. We will use this chart during circle time to compare families. Upon completion of the chart, students will become engineers and build their own house using Popsicle sticks, paint, and yarn. Inside the house will be a family portrait that each student will also create. They will be displayed throughout the classroom for students to be able to discuss and acknowledge the similarities and differences of families. Throughout this project, students will practice using fine motor skills, color sorting, comparing, contrasting, counting, building,

critical thinking and creativity. Students will also gain a better understanding of diversity, togetherness, and caring for one another.

In the fall, we will decorate a Bronco class pumpkin. This activity will allow your child to get creative, practice counting, work together as a team, and get his/her hands dirty. For this activity, I will allow each child to come up one-by-one and reach into the pumpkin and grab a handful of seeds. Following this, each child will complete a worksheet questionnaire about our class pumpkin. This worksheet will incorporate counting, color recognition, categorizing, writing and art. Lastly, each child will get to decorate a portion of the class pumpkin, encouraging the class to work together as a team.

As we go through the year, we will spend a lot of time incorporating diversity and kindness in our lessons. We want our students to gain a full understanding of the world they live in and the diversity within. We will also focus on using our words to solve our problems and to ask for help.

Reminders

Please, continue to check folders daily and to label all your child's items to prevent them from getting lost or taken by someone else.

Tip: Don't forget temperatures will start changing as we are entering the fall/winter seasons; please be sure to send adequate clothing like pants and a light jacket for your child. We know how unpredictable Texas weather can be.

Thank you for all your support in making this classroom a fun and safe environment for all to learn and grow!

CORRAL KIDS

WELCOME Back!

Summer has come and gone, but we went out with a bang at our end of the summer Carnival. We are excited to welcome our Corral Kids After schoolers back for another school year! The beginning of school

for Corral Kids is all about adjusting to new schedules, teachers, curriculum, and friends...we are ready to get the 2024-2025 school year started.

Homework, art projects, science experiments, games and fun activities are just a few of the fun things Corral Kids have planned this school year. Don't forget that every Friday is movie day. There will be a list of movies provided on the gym bulletin boards at the beginning of each month. We are excited to say, "Welcome Back, Corral Kids". We are working together to have the best Corral Kids' year yet!

To start the year off, both of our groups will be working with the teachers in their group to create their own personalized set of rules so that the students have an input into their program. We find that if we encourage the students to set their own rules, (and they generally know what rules they should follow), they are more inclined to follow them. We want to make each day an exciting and safe day, and each of our students can look forward to after-school fun!

As the weather changes, so will our focus. We will do different fall activities such as candy corn catapults, erupting apples, and fall scents homemade playdoh just to name a few. We look forward to a fun and cooler fall semester with all our Corral Kids.

Reminders

With days filled with changing leaves, there may be lower temperatures; we have much to look forward to. There are a few rules we want to remind our returning friends, while letting our new ones in on the happenings here in Corral Kids- we ask that all toys from home stay at home. (We would hate it if anything were to get lost or broken while at RHA)-Bring a water bottle each day to have during our outside times. Each group will have a set time for homework. (Please inform your child's teacher if there is anything you want us to focus on in that time (i.e., reading, writing, math). We ask that you personally check in with your child's Corral Kid teacher to see how his/her afternoon went when you come to pick up.

Communication

We would love to hear from you! Our communication app, ProCare is a wonderful way for you to let us know about your child's expected absences, questions about the programs and services that we offer, or any other questions you may have.

Throughout the year we will be offering All-Day care days for the days that Hays CISD is closed and RHA is open. All-Day care tuition is \$150/ Wk. plus \$45 each All-Day care day your child attends for our single day holidays. Please check with Ms. Kira regarding our tuition for our multiple day all day care weeks. If you do not wish to use All-day care, the \$45 will not be charged*. For Thanksgiving Break, Christmas Break, and Spring Break if you do not use All-day care, no tuition will be charged. Make sure to reserve your spot as space is limited in the holiday season.

ALL DAY-CARE WILL BE AVAILABLE:

- *September 23rd
- *October 11th
- *November 1st
- *November 4th- 5th
- *November 25th- 26th
- *December 20th
- *December 23rd- 24th (closing at 12:30pm on December 24th)
- *December 30th- December 31st
